

Mr. Speaker, this morning, as thousands of small business owners rise at the crack of dawn once again to build on the American Dream, we say thank you. It's their hard work and determination, and it's the tireless effort of every working American that has built the most prosperous Nation the world has ever seen.

INTERNATIONAL AIDS CONFERENCE

(Ms. SCHAKOWSKY asked and was given permission to address the House for 1 minute.)

Ms. SCHAKOWSKY. The International AIDS Conference could not be returning to America at a better time. This year's conference could mark the turning point in the HIV/AIDS epidemic. Advances in research are finally allowing us to picture the possibility of a generation that is free from this disease.

Despite great promise, there is still much to do. Now more than ever, America must remain committed to leading the fight against HIV/AIDS, combating the crisis right here at home and abroad. Our continued support is absolutely vital to developing new treatments and prevention techniques, including microbicides, as well as to finding a cure.

The United States must continue to do everything we can to increase access to treatment for infected individuals around the globe, including the availability of life-saving drugs. Let this conference serve as a reminder of America's contribution to combating this epidemic and a rallying cry for why we can't turn back now.

CALLING FOR A VOTE ON THE FARM BILL

(Mr. BERG asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BERG. Mr. Speaker, last week, the House Ag Committee reported out of committee a version of the House bill. I rise today to call for this important measure to be brought to the floor for a vote as soon as possible.

Agriculture is the backbone of North Dakota's economy. Our great State leads the Nation in nine different commodities. This farm bill takes into consideration unique things within our State and within many other States as it relates to agriculture and those commodities. Specifically, it implements a strong crop insurance program that would be so beneficial in times like these where we're facing severe drought in much of our Nation. North Dakota's farmers and ranchers need the stability that this farm bill can bring, and it needs to be a long-term authorization.

Now is the time for the House to act. For farmers and ranchers across this country, now is the time to ensure that we act on this important piece of legis-

lation and get it reauthorized for the long term. The time for the farm bill is now.

STUNT

(Mr. MCINTYRE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCINTYRE. Mr. Speaker, I rise to recognize STUNT, a new competitive team sport which focuses on the technical and athletic components of cheerleading, including stunts, basket tosses, and tumbling.

With more than 800,000 cheerleaders in the United States, USA Cheer created this NCAA emerging sport to provide new opportunities for female athletes to compete at the high school and collegiate level, while still allowing traditional cheerleading to remain a vital and important part of the schools' spirit program.

There are 22 colleges that have already participated in the national championships, with this number poised to expand significantly by next year. As cochairman of the Congressional Caucus on Youth Sports, it is my distinct pleasure to highlight the success of STUNT and to commend the inaugural players of this sport. Your pioneering efforts will inspire and generate excitement amongst the next generation of potential STUNT athletes. May God bless you for your efforts to involve more young female athletes in healthy physical activities and sports.

VETERANS JOBS ACT

(Mr. DENHAM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DENHAM. Mr. Speaker, I rise today to urge the President to sign the Veterans Jobs Act.

This body has a duty to make sure that every veteran, our brave men and women who are returning home—at 200,000 leaving Active Duty every year—actually have jobs available to them and that they're actually certified to be able to accept those jobs.

We invest billions of dollars every year to give the best training in the world to our young men and women who are serving our country. Yet when they leave Active Duty, most times they're not certified for the very jobs that they're trying to get. Our brave men and women deserve the opportunity to jump right into these fields. Why should they have to get 2 or 3 extra years of training to duplicate the training they already have that is oftentimes much better training that they had on Active Duty.

We have a duty to pass this bill, to have it signed into law, and to not let a day go by that these veterans return home and make sure that they've got the certifications to immediately enter our workforce.

I urge the President once again to sign this important legislation that both bodies have passed now on a bipartisan level.

RETURN OF THE INTERNATIONAL AIDS CONFERENCE

(Ms. LEE of California asked and was given permission to address the House for 1 minute.)

Ms. LEE of California. Mr. Speaker, for the first time in more than two decades, the United States will host the 19th International AIDS Conference, drawing over 20,000 people from around the world to our Nation's Capital.

Having participated in every conference since I was first elected to Congress in 1998, I knew we could not bring the conference back to the United States until the discriminatory immigration ban on people living with HIV was lifted.

In 2007, I introduced a bill to repeal the ban. Few believed it could be done, but through bipartisan support we achieved this goal, and I want to thank Members who are still here for their support in that effort.

This week, the return of the conference is an important opportunity to shine a global spotlight on the fight against AIDS in the African American community and communities of color, and a national spotlight on the ongoing global epidemic. Yesterday I introduced new legislation to do just that.

Ending the HIV/AIDS Epidemic Act articulates a policy and financing framework to achieve an AIDS-free generation in the United States and abroad. I urge all my colleagues to support it so that we can begin to bring an end to AIDS here at home and around the world.

TRICKING THE PUBLIC IS OBSCENE

(Mr. CLEAVER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CLEAVER. Mr. Speaker, funding the military is imperative, and supporting our troops at home and abroad is fundamental. But overfunding it at the expense of vital domestic programs is irresponsible.

The Defense appropriations bill is \$8 billion more than the agreed-upon level set by the Budget Control Act. This means that real programs in our home districts, which many of our constituents rely on, will be cut or go unfunded.

Every family in this Nation knows what it is to make a budget and the reasons behind needing it. This bill blatantly ignores the need and purpose of a budget. Certain aspects of this bill are hundreds of millions of dollars above requested levels. If a family tried to live like that, they would be in dire straits.
